

SR 400 and SR 365 Corridor Studies Comment Form

<http://www.dot.state.ga.us/dot/plan-prog/planning/studies/sr400-sr365/index.shtml>

What is Your Opinion on Improvement Options for the SR 400 Corridor?

The goals of the SR 400 and SR 365 Corridor Studies are to improve safety, increase mobility, better manage access, and encourage transportation best practices. To meet these goals, specific objectives have been identified, and the best scenarios for accomplishing these goals and objectives have been developed. Please review the scenario displays and provide your feedback on whether the preferred scenario does or does not meet the objectives under each goal. Feel free to ask the study team for additional information.

Goals	Objectives	Scenario: 8-Lane Freeway with Managed Lanes		
		YES this scenario does meet the objectives for this goal	NO this scenario does not meet the objectives for this goal	Comments
	Reduce potential for vehicular conflicts			
	Increase safe crossings for bicyclists and pedestrians			
	Reduce corridor trip times			
	Reduce system-wide hours of delay			
	Decrease corridor mileage operating at unacceptable levels of service			
	Reduce corridor access points			
	Increase connectivity			
	Increase average speed in congested conditions			
	Minimize environmental impacts			
	Maximize benefit/cost relationship			
	Promote appropriate land use decision-making
